

„LAYOUT|SWITCH raises the user efficiency and effectivity.“

Are you looking for a possibility to have dynamic Act! layouts?

With LAYOUT|SWITCH you have the possibility to create Act! layouts to meet your requirements! Improve your Act! Layouts usability.

Your personal benefit

- ✓ Individual layouts adaption
- ✓ Higher user affability
- ✓ Visual improvement
- ✓ Multilingual commitment
- ✓ Better data quality

The higher the user affability of a software product, the more effective and efficient the operators work with it. An operation is copious in the user's eyes when he can intuitively conduct his daily tasks by reading, clicking and data input. LAYOUT|SWITCH|IT aided by a dynamic surface and reduces the amount of work in data care. The

entry mask conforms to the need of the user. This flexibility can be configured to user-, team- and role flat. Equally you can define contacts, companies, firms, groups and sale chances for the afield domain. The data quality will be much better by fading in exhibit masks in the customer- and user domain. In addition you can regulate the audience oriented conspicuity.

You can get LAYOUT|SWITCH BASIC for free, online at www.crmaddon.com

With the optimized entry mask, you can raise the efficiency and effectivity in your daily work. The administrative effort of the IT guarantor reduces by a central configuration. One entry can be defined for a whole user group with a faded in layout.

„LAYOUT|SWITCH allows me to customize my workspace as I see fit.“

Screenshot: activity dialog

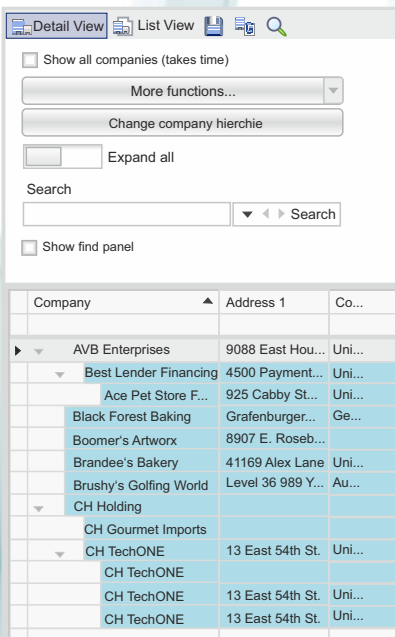

The screenshot shows a dialog box with two main panes. The left pane is titled 'Additional Information' and contains fields for 'Contact' (Chris Huffm...), 'Associate with' (Chris Huffm...), 'Schedule for' (Chris Huffm...), 'Regarding', and 'Location'. Below these are 'Date and Time Information' fields: 'Activity type' (Meeting), 'Start date' (8/11/2014), 'Start time' (1:00:00 AM), 'Priority' (Low), and 'Alarm'. The right pane is titled 'Search' and shows a search criteria 'Use Filterline (=first row) in the grid'. It contains a table with columns 'Name' and 'Company'.

Name	Company
	Sky Diving
	ACT! User Community North America
Al Pashah	Making Technology Co
Albert Barry	Mercury Production Management
Alexander O'Brien	Manx sys Financial
Alice Sweet	VoiceComUSA
Allison Mikola	CH Tech ONE
Amanda Form	A1 Services US Operations

Buttons at the bottom include 'Cancel' and 'Select this'.

Screenshot: company hierarchy

The screenshot shows a window with a 'Detail View' and 'List View' toggle. It includes a search bar and a tree view of companies. The tree view is expanded to show a hierarchy of companies.
